# ISOPARETE

Panel sándwich de pared con núcleo aislante de espuma de poliuretano, caracterizado por el sistema de encastre con fijación de tornillo oculto que permite fabricaciones de alta calidad desde el punto de vista estético.

Isoparete Box es un panel sándwich de revestimiento empleado para uso de pared en edificios industriales y comerciales, que se caracteriza por un sistema de cierre de fijación oculta. Se puede elegir el tipo de acabado exterior entre dos tipos diferentes de perfiles.
